Hey, it's Dr. Remka and I'm inviting you to get ready with me. It's a real popular trend. I don't normally do it, but let me take you into what I do to help my 51 year old skin and scalp and hair and everywhere else stay fresh, young, tight.

And I like the word moist. If you're triggered by it all the better. What's happening today, 8 p.m. Eastern, is that these experience kits that we have for the Korean K-beauty products I use are going on sale.

They will probably sell out in one to two hours. So if you are interested in a 10 to 20 day trial of what I used for only $100, here's your chance tonight.

We'll make sure we had my link dropped and we'll be able to figure out how to get a link to buy it for yourself. and be sure to get my customer service if you buy from me.

I only take care of those who are my customers, just so you know. Now, we have the EX ritual and we the RAD ritual.

Who the Kits Are For

This is what I use and this is going to be where 90% of everybody is gonna start, maybe even 95% if I'm gonna run through what's in here. this would be my 65 and up group would maybe be able to start here, but they definitely would move into it in the second or third month.

Many people will use this ritual in the morning and then they'll use the ritual this evening. This is more hydration water based and this is oil moisturizing based.

So if you have really, really dry skin in your 40s and 50s, you might be able to use it. It's not the line I use, it's the more professional advanced line that goes deeper into the skin.

Its more moisturizing, I have a little oily type of skin, so this isn't the best line for my skin My 65, 70 year old, 75 year-old ladies mostly like this.

Many of them do this in the AM and they do in this PM. So if you're in that category, you might want to get this kit and this one. That way you got them both.

Day and night. Alright, for the special $100. These will only go on sale again probably Black Friday or December. They will sell out really quickly. We get limited supplies of these.

Now I'm going to show you what's inside them. And I'm gonna run through this. So you get these incredibly gorgeous sample size of eight different steps.

Whatu2019s Inside the Experience Kits

And the K-Beauty products are renowned for a double cleanse. You get one cleanser in here, and then you some of the boosters in this, I gonna show you, gonna put it on my face right now so you can see what I do.

I not gonna go through the washing, but I did that. But I would highly recommend if you buy one of these experience kits, you add the second cleanser, because the Korean and K-Beauty program, basically, why they get such incredible results, it's renowned for the double cleanse.

This is an oil cleansers. Please stack in the Purcell Cleansing Oil. this is incredible. It takes off all the makeup. You

put it on a dry face, and then you just rub all this oil in, right all up in eyes.

Oh my, It feels so good. Its like a nice lymphatic massage. I go all of the way down my neck, Then you put some water on it and scrub it off, rinse it, off it foams up a little bit, it's fantastic.

Then, you would do the second cleanser. So, by adding in an oil cleansers first, pulling off oil, sebum, makeup, sweat, then you'd put the 2nd one, which is a water-based enzyme, some very, very mild exfoliant, and you get the dead cells off and the bacteria.

The skin is primed now to receive these, right? So if you order one of these kits today, only for $100 to get, for a hundred dollars to you know, at least a two week trial.

Some people are stretching it and they're getting like 30 days out of it. I don't know how they doing it, but they doin' it! They doin a little bit of dab.

Am a lil' generous with it I would please stack this on.

Double Cleanse and Skin Prep

If you wanna get the full ritual experience of what I'm getting and these incredible results, put the Pure Cell Oil Cleanser on it this is an outrageously good product.

It's probably one of my favorite things in the line. Super, super gentle. This is for the most sensitive skin ever. Now, let me show you what it is. Now in the meantime, I'm gonna throw on some of the body cream, just because I love it.

So if you ordered some this and you wanna stack on for hydration everywhere, you can throw in some Swamel bodycream. Nobody likes to be dry, cracked, and ashy.

I also love the hair serum, so I put the serum in my hair wet. And then when I blow it dry, it's very, very protected. It protects my hair strands and follicles from damage.

And I often put it on my head after I style it. So I'll blow dry and put that on after. All right. First step that's in there, the Vietan oil mist. Do a gentle shake, close the eyes.

That's it. Now that very gentle mist is coming into my skin and you can, you know, pat it kind of in. It's so nice. Love it! Normally I'm stone cold naked, but this is not OnlyFans, so y'all ain't getting that show.

But I just do it everywhere. I let the mist fall where it likes to fall. gentlemen. Then the next step I like to use is the calming gel. I did not have this for a couple months.

This calming balancing gel I'm going to show you, I just put a very small amount, okay, that is damask rose water, eight layers of low molecular weight hyaluronic acid, and 24 karat gold flecks.

When you get this, it's so gorgeous.

Mist, Gel, and Booster Steps

And I And I rub this in everywhere. This is especially incredible for acne, rosacea, bug bites, mosquito bites cuts, burns. It balances the pH and the gold helps that everything penetrate even deeper and it is anti-microbial.

And just when you look at it, it's so luxurious and sexy. Just makes me feel like I'm 24 karat gold and I deserve all the things, right? I love this. I put this on and if you have acne or rosatia, You can put this on multiple times.

So let's say you have breakouts here, you can just do a little bit throughout or wherever that is, can go all over

sunburns as well. It's incredible for that.

Then Here's the magic of the Korean skincare. I never heard of booster sprays, I didn't do this. Why are you doing Boo Say Boo? Why does that sound so stupid?

But Boo say Boo stands for booster, serum, booster again. So this is the EX Booster and you just simply close your eyes because it does have a little burning in the eyes if you go like this, so don't Okay, that's the booster.

So it has this giant byungpoo leaf, the Jeju lava frequency water, a bunch of other weird sea berry things, all these magical plant extracts from Korea that are heritage plants they've been using for centuries.

And I just do that. I don't wait for it to dry. And some people drop it, I don't do that. I put it on my hands, okay? And just all up in the eyes, see all that?

All up, there's no eye cream. Fantastic. So what we're doing is we are driving the ingredients deeper and deeper.

Cream, Stick, and Final Tips

This was a little bit thicker of some of the same ingredients. Now I take the booster again. I don't wait because I didn't want it evaporating. It's evaporated right now.

Trying to drive it into my skin. Moist. Okay. All of this is in the experience kits in those nice travel sizes. Then you take cream. The ActivX Cream.

Don't need a lot. See that? All of it. So then it's very gentle, you just glide it on. You don't rub it all in deep, just be very gently. See, it' all on my lips, all up in the eyes.

I go up the neck, I get my ears, y'all, behind the net. Do all of that, okay? There's that. Here's one of my favorite products. People don' talk about it enough, the stick. I thought this was so stupid.

It's my favourite product now. extra moisture. You can do this all throughout the day to keep you real, keep your glowy. Love it. So that's my little routine.

Didn't take 80,000 years. That's what I do. that what's in these kits. Okay. I highly recommend you add and you stack however the Purcell oil cleanser, so you get the double cleanse.

There's only one cleansor, the active powder cleansers that's in there, a mild exfoliant. All the instructions are in the kit. They go on sale today at eight o'clock.

Now listen, I would say stack in some body cream, because it's about to be dry season. Nobody likes your crusty feet all up into bed. Rub it, get it for your husband.

And listen, you can't go wrong with this stick. It sticks in your purse. You do the thing. Can highlight. People do all kinds of things. They contour here.

I have enough contour happening, but like, what? Sharpen it up, ladies and gentlemen. See? I don't look all greasy. Look, I look fresh. Then you could put on makeup or don' put makeup.

Is your call boo.
