Introduction to the interview

Hey, it's Nathan Crane, director of the Health and Healing Club and host of the Conquering Cancers Summit.

Electro Equus Scope overview

And today, I am honored and excited to welcome you to a very special interview. Hi. My name is Anita morales, and I'm an electro tech here at the Cancer Center for healing.

The first modality that I'm going to talk about is the electro Equus scope. It is a second class FDA registered medical device. This machine reads and treats the system in a matter of a second.

It supports the body's cellular system by feeding it with ATP. When your body is energetically suppressed through some sort of injury and or some sort of disease, the system begins to work very slow and suppresses the immune system over a period of time.

Illness builds up. When you use this machine on a regular basis, it reignites the cell. Very much like when you walk into a house and the light is turned off.

You turn on that light and the cell wakes up. This machine turns on the light, the cell recharges, it supports the ATP, moves out, inflammation and edema.

It also can handle the emotional system. The parasympathetic nervous system is extremely important when it comes to healing. So it balances the parasympathetic nervous system.

It can help injury as well as systemically clean out the system. It is over 45 years old.

Light Beam Generator lymphatic cleanse

It is accurate. It reads and treats in a matter of a second. As I said before, it's a giant brain. It mirrors the body's cellular activity. This is called the electro equa scope.

The next we're going to talk about is the light beam generator or the Lbg. This is a lymphatic cleanse. This machine has the ability to sweep the lymphatic system as well as detox the lymphatic system.

It does it through light energy, ozone and infrared. When your system, when your lymphatic system is slow, it slows down your body's progress for healing, especially when it comes to the various types of, medicines and so on that the doctors are using here.

Doctor is emphatic about the lymphatic. She wants everyone utilizing lymphatic modalities to keep the system cleanse, which keeps the body balanced. The lymphatic system is the food to the system as well as to to be a little bit less, shall we say, elegant?

The trash can of the system. And that's exactly what the Lbg does. The next one I'm going to talk about is the Beamer. We're not talking about an automobile here.

This is the bio electromagnetic energy regulator.

Beamer bioelectromagnetic therapy

It is a second class medical device from Liechtenstein. Germany. When you lay on this, it increases what they call vessel motion and Michael's circulation.

That capillary opening and closing. Opening and closing and moving that blood through the system. Improving your circulation. It governs 11 systems of the body.

It covers all of our 74,000 miles of capillaries that can actually circle the world in two and a half, two and a half times. When you use it on a regular basis, you can expect better sleep, better digestion, better elimination, more flexibility, more mental clarity.

It is absolutely necessary. And the one I talked about the most the lymphatic system. Again, lymphatic is paramount for healing. When they leave that system is slow.

Your progress slows down. So we are absolutely emphatic about the lymphatic. So thank you so much and have a nice day. And I want to thank everyone for tuning in to the Conquering Cancer Summit.

Please share this with friends and family together. We truly can make a difference for the future of humanity in ending the cancer Pandem MC.

Closing remarks and summit outro

Thank you and I wish you ultimate health and happiness. Be well.
