Design Wall Housingu2019s Mission and Origins

I'm so excited because one of my favorite local nonprofits, Design Wall Housing, is approaching a huge milestone. They started their mission in 2012 as two social service workers who were just really frustrated with the local homeless and affordable housing issue.

Today, their vision is to provide safe and afford housing to those that are impacted by homelessness, but one that's built on a foundation for personal growth.

First Building and Upcoming Housing Units

And they're doing just that. So they purchased their first building on October 13th, and they're about four to six weeks away from housing unit one, which is a three bedroom apartment.

Then they'll have a two bedroom unit available just a few more months after that. So I'm coming to you because I know that you would also love to make a big impact to help get more affordable housing out there for those that need it.

Design Well Housing is having their second annual fundraiser on November 9th at Jeff's Catering and Brewer.

Fundraiser Invitation and Ways to Support

It starts at 6.30 PM and there are still a couple of tables left. So their website is dwhousing.org. That's D for design, W for wall, and then the word housing.

And I'm going to be there with my husband and my friends. We would love to have you join us. If you can't make it, there's also a donate now button on their web site.

Even if it's just 20 bucks, it counts. Every little bit counts, but I do hope to see you there.
