Introduction and interview welcome

Hey, it's Nathan Crane, director of the Health and Healing Club and host of the Conquering Cancers Summit.

Meet Dr. Lee Aaron Neely

And today, I am honored and excited to welcome you to a very special interview. Hi, I'm doctor Lee Aaron Neely, the medical director at the Cancer Center for healing.

Red light bed overview

We are standing right next to our red line that this is a special red light bed from Germany that has 50,000 red lights. See the red lights?

How red light therapy works

So red light has a special wavelength anywhere between 600 and 20 nanometers and 750 nanometers. These are healing wavelengths of light. They are used for many, many health conditions.

There's thousands of studies reported incredible health benefits. The health benefits are numerous. One of them is to make your skin more beautiful. It's treat skin conditions, chronic skin conditions like eczema, psoriasis and acne.

Health benefits and clinical uses

In HPV patients, it reverses three months of therapy reversed HPV. We use it for chronic inflammation. Chronic wound healing. We use it for cognitive impairment.

That could be mood disorders or Alzheimer's or cognitive impairment. It also can be used for hair wrinkles. What it does is this red light stimulates the mitochondria mitochondria produce nitric oxide and they create ATP, the currency of life.

So if you were diagnosed with cancer, we would use this as an adjunct to cancer therapy to your surgery or chemo or radiation. And it would also be used for patient who wants to recover from treatments.

Red light as cancer treatment support

They already had to treat their cancer. So for more information please go to Cancer Center for healing.com. And I want to thank everyone for tuning in to the Conquering Cancer Summit.

Please share this with friends and family. Together, we truly can make a difference for the future of humanity in ending the cancer pandemic. Thank you and I wish you ultimate health and happiness.

Closing remarks and call to action

Be well.
