Life Force Blessings Invitation

Monks chant for people. They send energy to people. And I learned about that from a very wealthy person who was having the monks and energy to his business, and his business exploded, and this individual was a billionaire.

And so I started exploring how could we make that connection and bring that to the Western world, not just for making prosperity and making you very rich?

Although as energy comes in to you, you will have more prosperity. But for healing, for love, for happiness, for joy and for wellness. And so that's why we created myself, Master Chunni, Lynn and I created Life Force Blessings.

And we combined with these beautiful Tibetan monks that are from the lineage of the Dalai Lama. And so every day for life force blessings members, they chant for you.

They have your specific name and they chant for you and they send energy to you. If you're interested in finding out more about that and joining our family, please go to WW.

Dot lifeforce blessings.com/energy. And when you go to that site there's a special offer to help you make the decision to become part of our family. And what do you do or don't?

We love you and we send you all our love and all our blessings. Thank you so much for.
