First Visit With Dr. Bennett

All right, so we're sitting here with Glenda. She just got done seeing Dr. Bennett for the first time. Can you tell us how it was for you? It was amazing.

I just can't believe how I feel now. The shoulder was hurting. And I was anticipating getting a shot that I didn't want to get. My hands and arms, I couldn't move my arm this way.

So now you can. Now I can, it doesn't hurt at all. And this is just the first visit. You are also a patient of Dr.

Long-Term Care With Dr. Schmitz

Schmitz? Yes. And how long have you been coming here for? Over 20 years. Dr Schmitt has really improved my overall health. I tell everybody about this place because I have had such great success.

Thank you so much for being here and coming.
