Thanking the viewer for completing the form

Hi, I just wanted to take the time to say thank you for filling out this form. I know it was rather long, but it does give us a lot of information about what could be going on within your system.

And sometimes that helps us avoid some pretty expensive testing.

Explaining how the questionnaire helps identify issues

This questionnaire is broken down into sections and I knew those sections don't really mean much to you, But they tell me a lots about everything that is happening in the different processes for things like the thyroid, the adrenal glands, stomach, and even the gut.

Again, I really appreciate you taking the time to be so thorough with this work.
