Sponsor Announcement: Heart Glow

Hello everyone. I have a special announcement here today for all of our summit attendees, and it's from one of our sponsors. Their product is called Heart Glow.

If you don't know this already, if you haven't listened to the sessions. Doctor Burke was a specialist in vascular health before she got into cognitive decline, and a big part of reversing cognitive decline consistently is taking care of the heart.

Now, Doctor Burke has never had a heart attack in the history of her practice as because she does advanced vascular health and she ends up using tools that you may have heard of called Q10, Omega three, Omega six, omega nine, beta glucan, cocoa, flavonoids, quality protein.

All of these things can be used and are used to maintain a healthy heart. And ultimately, this is the vascular part of running, you know, of, of maintaining a healthy body.

So ultimately we have really excited to have Heart Glow as a sponsor. Ultimately, there's 100mg of CoQ10. There's over 1000mg of omega six, mega, omega three, mega nine from the ahi flour, there's 200mg of cocoa.

And so there's just a lot of good stuff in there. Essentially, this is about creating a healthy brain through keeping your heart healthy that intricately connected.

And so we've got a special deal. And we're really grateful to our friends at heart. Glad for doing this. If you click on the link below, you can get 50% off and free shipping and 90 day money back guarantee.

So if you don't think it's helping, you can send it back, get your money back. And we're really grateful for Hot Glow for supporting us in the summit.

Check out all the details below.
