Arriving at Deeper Healing in Desperation

I'm Dr. Jen. I came to Deeper Healing from Pennsylvania, dealing with chronic illnesses, of which I was not really sure the root cause. The most predominant of, which were severe fatigue and neurologic symptoms that my medical doctors in Pennsylvania really had no clue what was going on.

And I, was at the point of being ready to have another surgery on my neck. My neurosurgeon was reluctant to do so and felt that something more was going on.

Finding Hope and Support During the Stay

I was very desperate for answers and actually said I couldn't go on living the way I It was definitely meant to be for me to, be here for the two week stay and heal.

It has been an absolutely amazing experience from the moment I walked in the door, I felt love, light, and most of all hope that I could be well. and healthy.

I can say that I have truly enjoyed just about every one of the treatments here and every single person I've interacted with that works here has been helpful, delightful, and always has a smile on their face.

Leaving with More Energy and Inspiration

came in with severe fatigue, I certainly have more energy. This place is absolutely amazing. I can't say enough good things about it. When I was calling to look into deeper healing, i was at my wit's end.

i Was desperate with how I Was feeling. Now, two weeks later, as I'm leaving, inspired. I'm most inspired to be able to share with others what I have learned and continue on my own journey of well-being.

i recommend deeper healing to anyone struggling with a chronic illness or just wants to maintain health and well being.
