Welcome to the Alzheimer's Summit

Hi, Dr. Kristine Burke here. Welcome, and thank you for joining me at the Alzheimer's Summit! You've just made an incredibly powerful decision whether you're here to protect your own memory, help a loved one, or gain the latest insights as a health care professional.

You're now part of a movement that's changing the way we think about Alzheimer's disease.

Alzheimer's Is Optional: A New Approach

For too long, we've been told that memory loss is inevitable, that cognitive decline is just part of aging, that there's nothing we can do. But here's the truth: Alzheimer's is now optional.

And this summit is about showing you exactly how to take control of your brain health – starting today, I'm so excited for you to experience this summit in your own way and at your own pace.

I want you to be able to come back to these incredible presentations whenever you need them.

How to Access Summit Videos and Downloads

Speaking of which, this is a great time to remind you of two things. One, you have access to dozens of videos from the summit forever. And two, you can also download all the videos and audio files.

I find it really helpful to listen to the audio versions in my car, on the way to work, or during my morning walk. Also, don't forget to download your bonuses from our speakers.

They contain exceptional value on your healing journey. You can access all of these items at any time in the menu located at the top of your account profile.

If you bought any other products during the checkout process, an email from us with instructions on accessing them is already in your inbox.

Bonuses, Account Access, and Support

If you can't locate it, please email us at support@drtalks.com. You can also contact us if you have general questions about your account. Our diligent support team at DrTalks is here to assist you any time.

That's it for now. Please enjoy everything the summit offers. We are here for you together on your health journey.
