Welcome to the Menopause Summit

Hi, Dr. Sharon Stills here, Sharon Stills here, and thanks again for purchasing Dr. Talks premium to the Mastering the menopause Transition Summit 2.0.

You have made an excellent choice and a huge first step towards reinventing the conversation around menopause so we can discuss it earlier in women's lives and understand that it is not something we need to be afraid of.

I have over 20 years experience in clinical practice as a naturopathic medical doctor, helping patients with menopause and hormone imbalances.

Why This Summit Matters

I also hosted last year's menopause summit and it was such a success and so well received that I'm back to give you more information. I was just blown away by how many women said this summit really helped them change their life, change their health.

It was so meaningful. And so that's why we're doing it again. I'm on a mission to change the conversation around menopause, to bring knowledge and healing solutions to all women on the planet.

I am so excited for you to experience this summit in your own way and at your own pace, because isn't that what menopause is all about. I want you to be able to come back to these incredible presentations whenever you need them.

Speaking of which, I want to remind you of two things right now.

Accessing Videos, Transcripts, and Bonuses

Before I forget, you have access to all 40+ videos from the summit forever. You can also download and read all the transcripts and audio files. I love doing that personally.

I think it's really easy to download the transcripts or the audio files. I listen to them when I'm out on a hike or in my car. So if that works for you, I highly recommend it.
