Welcome and Summit Introduction

Hi, Dr. Terry Wahls here. Thanks again for join me at the Multiple Sclerosis and Autoimmune Summit. Now you've taken a crucial step towards reversing your symptoms, reducing your fatigue, and improving your quality of life.

I know the reality of living with multiple sclerosis. I know the reality of living with progressive pain, fatigue, and further decline.

Personal MS Journey and Recovery

Now, my own experience began with severe face pain during medical school and culminated with the diagnosis of trigeminal neuralgia. Then relapsing remitting multiple sclerosis, then secondary progressive multiple sclerosis, and then a tilt recline wheelchair and experiencing relentless decline.

I fought back and I got my life back. You can too. I'm here to tell you that it is possible to reclaim your energy, to reclaim your vitality, to once again start walking, to once again start hiking and biking.

I'm so excited to have you experience the summit in your own way and at your own pace. I want you to be able to come back to these incredible interview shoes whenever you need them.

Accessing Summit Content and Bonuses

Speaking of which, this is a great time to remind you of two things. You can have access to dozens of videos from the summit forever. You can download all the audio files.

I find it particularly helpful to listen to audio files in my car on the way to work. And don't forget to download the bonuses from our speakers. They contain exceptional values to support you on your healing journey.

If you bought any of the products during the checkout process, an email from us will give you the instructions on how to access them. That's already in your inbox.

If you can't locate it, please email us at support at Doctor talks.com. You can also contact us if you have general questions about your account.

Support, Account Help, and Closing

Our diligent support team at Doctor Talks is here to assist you at any time. That's it for now. Please enjoy everything the summit has to offer. We're here to support you and together help you thrive on your journey to health and vitality.

Now, much love to you and your family.
