Welcome to the Summit

Hi. Dr. Joel Fuhrman here. And welcome to the Plant-Based Cancer Solutions Summit. First, let me say you've just made a truly powerful decision. Whether you're here to reduce your cancer risk.

Support your recovery, help a loved one, or deepen your understanding as a health professional.

Why This Summit Matters

You are now part of a movement that's redefining what's possible when it comes to healing. For too long, people have been told that cancer is all about luck or genetics, or there's nothing you can do.

But the science and decades of clinical experience tell us that your daily choices have the power to transform your health. And this summit is all about giving you the tools, clarity and confidence to take back control.

Accessing Videos, Audio, and Bonuses

I'm so excited for you and for me that we can experience this summit in your own way and at your own pace. I want you to be able to come back to these incredible presentations whenever you need them.

Speaking of which, this is a great time to remind you of three things. One, we have access to dozens of videos from the summit forever. Two you can also download all the videos and audio files.

I find it particularly helpful to listen to the audio versions in my car, on the way to work, or during my morning walk. Lastly, don't forget to download your bonuses from our speakers.

They contain exceptional value on your health journey. You can access all these items at any time in the menu located at the top of your account profile.

And if you bought any of the products during the checkout process, an email from us with instructions on accessing them is already in your inbox.

Support and Account Help

If you can't locate it, please email support@drtalks.com. You can also contact them if you have general questions about your account. The diligent support team at DrTalks is here to assist you at any time.

That's it for now. Please enjoy everything the summit offers. We're here for you together on your healing journey.
