Assisted Standing and Walking

Okay. All right, Tim, can you turn back around and just come back this way just for a second? It's hard for you to lift your head? Yeah. Okay, go ahead and walk towards the sign.

Patient Testimonial After First Appointment

There you go. Alright. I don't really need the cane. If you don' t need it, don t walk with it. Well, you saw me when I came. I know I'm recording. Go ahead.

He almost wants to dance. All right, turn around. Come back. How much straighter you are. Hi, everyone. So my name is Jenna. Um, I just had my first appointment and, um, sorry, just finished crying because I've been in my wheelchair for about 10 months now.

And I got to feel normal for the first time after my appointment. Um, so a little bit, I have not been able to stand up very well without not being able feel my body.

Sorry. But, um, it's the time it felt normal to actually stand and actually feel like I can hold myself up and not have to work so hard to do that. And actually be able sit back down with making it look easy.

so many different medications, doctor's appointments, and in the hospital for nine months. So this is my first month out and my 1st appointment here. Definitely worth it and I definitely recommend it because you'll feel amazing afterwards.

Thank you. Yay! Look at that! Hold on, I got stretched out a little bit. Good. Good
